Get your ball team together,
Hogfest is coming!
JUNE 30, JULY 1&2!

A guy is sitting at home when he hears a knock at his door. He opens the door and sees a snail on the porch. For whatever reason, he picks it up and throws it as far as he can.

About a year later, there's another knock on the door. He opens it and sees the same snail.

The snail says, "What was that all about?"

The Top 10 Reasons Old Farm Trucks Are Never Stolen...

10. They have a range of about 20 miles before they overheat, break down or run out of gas.
9. Only the owner knows how to operate the door to get in or out.
8. It is difficult to drive fast with all the fence tools, grease rags, ropes, chains, buckets, boots and loose papers in the cab.
7. It takes too long to start and the smoke coming up through the hole in the rusted-out floorboard clouds your vision.
6. The border collie sitting on the toolbox looks mean.
5. They're too easy to spot. The description might go something like this: The driver's door is red, the passenger door is green, the right front fender is yellow, etc.
4. The large round bale in the back makes it hard to see if you're being chased. You could use the mirrors if they weren't cracked and covered with duct tape.
3. Top speed is only about 45 mph.
2. Who wants a truck that needs a year's worth of maintenance, u-joints, \$3,000+ in body work, tail-lights and a windshield.
1. It's hard to commit a crime with everyone waving at you.
